at the Aviva Broker Conference panel discussion

23 April 2026

Barry Scannell

Dr. Barry Scannell is an expert in AI law and policy, specialising in intellectual property, AI compliance and governance, data protection, and commercial contracts. A Partner in the Technology Group at William Fry, one of Ireland's leading law firms, Barry advises major Irish and international organisations on the legal and regulatory challenges posed by AI technologies.

Barry holds a PhD in AI and copyright and plays an important role in helping shape Ireland's AI policy as a member of the Irish Government's AI Advisory Council, and chair of its Working Group on AI and the creative sector. Barry has extensive experience in the music industry, in a previous role being Director of Legal Affairs and Regulatory Compliance of the Irish PRO, IMRO, the Irish Music Rights Organisation. He was also on the Global Policy Committee for CISAC, the international body representing collective management organisations, and chaired its working group on AI and copyright. Barry has addressed global forums such as the World Intellectual Property Organisation's (WIPO) ongoing conversation on AI and copyright, on and is a regular contributor to national and international news and media. Barry also sits on the Law Society of Ireland's IP and Data Protection Committee.

Matt Munro

Matt has spent over 25 years building, scaling, and disrupting digital insurance businesses. He is Co-Founder and CEO of Tilt - a digital-first insurance broker built from the ground up on AI to bring speed, simplicity, and smarter journeys to the way small businesses and consumers buy insurance.

Before Tilt, Matt built iGO4 from a start-up to a profitable insurance platform with over 350,000 customers, £250m GWP, and a team of more than 350 people. The business attracted investment from family office and private equity before being acquired by Ardonagh in 2024. Earlier in his career, Matt was part of the senior team at BGL Group that built a number of successful businesses, including Compare the Market - one of the platforms that fundamentally changed how the UK buys insurance. He also held senior roles at Aon. Matt has always believed that building the right team is the hardest and most important part of building a great business. That hasn't changed at Tilt.

Tony Goddard

Tony joined Acturis in 2001 after graduating from Durham University with a Master's degree in Engineering. Over the next two decades, he played a leading role in shaping and scaling the Acturis platform, helping establish it as a market leading insurance technology solution.

Tony is now CEO of the Acturis Platform business, with responsibility for strategy, financial performance, product delivery and operational execution across the UK, Ireland, Canada, France and Poland. He is passionate about technology-led transformation and delivering exceptional customer outcomes, and he believes long term success is achieved through strong, collaborative partnerships.
